

Scenic Eclipse II Fact Sheet

Overview

Scenic Eclipse II continues the evolution of Scenic's 6-star luxury ocean cruising experience. Launching May 2020, her inaugural sailing will depart Athens for Lisbon; while her maiden season will feature the European and Russian Arctic. Itineraries will include remote and long sought-after destinations including Russia's White Sea, Southern Greenland, the Northwest Passage, and Alaska to Russia across the Bering Sea.

As with sister ship Scenic Eclipse, Scenic Eclipse II will be the perfect blend of luxury meets expedition – marrying luxury, discovery and safety, to give guests the opportunity to explore above and beyond what was previously imaginable.
